

«Sirius»

— University Digital Educational
Platform (Sirius LMS).

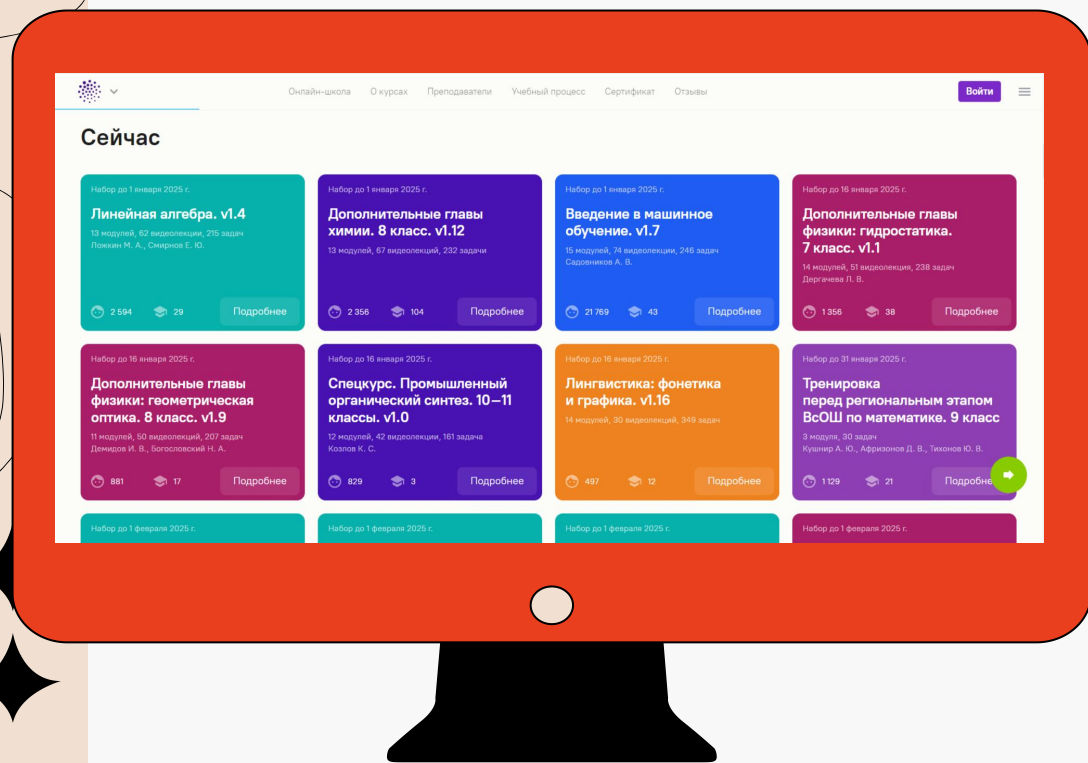

Sirius is located in the Imereti lowland on the Black Sea coast. The city of Sochi is located next to Sirius, from which the railway station to the village can be reached in about an hour and a half by bus or train.

The Sirius Center was founded in 2015 by the Talent and Success Educational Foundation, and cellist Sergey Roldugin became its founder and chairman of the board.

Up to 800 children aged 10-17 come to the center from all over Russia every month. Since 2018, Sirius has been regularly conducting intensive training for students, including its graduates.

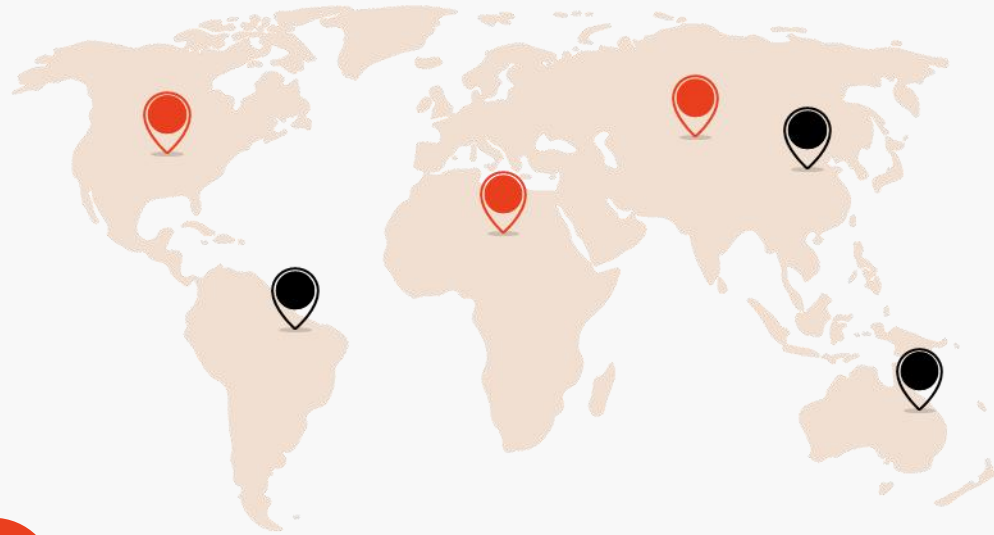

The Sirius University Digital Educational Platform (Sirius LMS) is designed to support the educational process in full-time, mixed and distance formats. The platform provides e-courses and methodological support for educational programs. Training materials and test tasks are available to users on any device 24/7.

«Sirius»

The Sirius platform.Courses" offers open online courses of additional education in natural sciences for schoolchildren and anyone interested. There are 30 courses available on the platform in 7 areas: mathematics, physics, computer science, chemistry, biology, linguistics, artificial intelligence. The authors of the courses are teachers of leading schools and universities, current teachers of full-time Sirius programs.

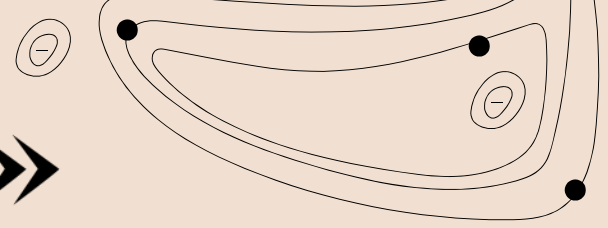

Also on the Sirius platform. Courses there are training and selection courses for full-time Sirius programs in the field of Science, as well as programs of regional centers.
